

SPAR, DECK AND BUOY

British steamship Ardmount in from Port Los Angeles.

BARK B. P. CHENEY TO SEA

Columbia In From San Francisco—Armeria Comes Down to the City—Melrose Clears for Bay City—Golden Shore Due Down Today—Notes.

The handsome light house tender *Armeria* came down from the Buoy dock yesterday and tied up at the Sanborn coal dock, where that fleet generally berths. Captain W. F. Gregory was in command having taken over the vessel on Wednesday. So far as he has handled her he is very much pleased with her, but it will require a full trip outside to give him an accurate knowledge of her especial qualities. She is a fine sturdy looking craft, well put together and built like a watch, strong and fairly swift. She looks like a ship in comparison with her fellow-crafts the *Heather* and *Columbine*. The *Armeria* has a lively "mascot" in the shape of a fox-terrier by the name of "Nellie" who seems perfectly capable of taking charge of a gangway or any other assignment that may be given her. Captain Gregory has as yet received no sailing orders, though they are likely to come at any moment.

The steamship *Columbia* came in over the bar yesterday forenoon, with a good list of people in her cabin and about 170 tons of freight for this city, leaving up for Portland about 5 o'clock in the evening. Among her passengers for Astoria were: Mrs. M. A. Gilbert, the kinswoman and guest of Mr. and Mrs. A. V. Allen; C. H. Meussdorfer, the uncle of J. C. Clinton, of Portland, who has been south on a visit with friends; and several others whose

names were not obtainable in the rush of disembarkation.

The British steamship *Ardmount* arrived in port yesterday morning from Los Angeles, and was piloted on to St. Helen's at once by Captain John Peterson, (who, by the way, made a very clever maneuver in swinging the big tramp within her own length in the city channel). She will load lumber outward, her charter cargo having been reserved there for her; a circumstance largely in her favor, in the present condition of affairs up the river.

According to the Oregonian of yesterday the commercial interests of Portland are about to send Ed. Wright back to London to see what he can do about deflecting the grain ships of Europe to the Portland docks during the coming season. He leaves next week and will be gone the better part of six weeks.

The steamer *Oklahoma* went back up the river yesterday morning immediately for the schooner *Golden Shore*, waiting, lumber laden, at Rainier, for towage to sea and San Francisco. She should be down early this morning.

The schooner *Melrose* finished loading lumber at the Clatsop mills dock yesterday and hauled into the stream. She cleared at the custom house yesterday afternoon, and will probably sail today, for San Pedro.

The bark *B. P. Cheney* came down the river on the lines of the *Oklahoma* yesterday from Stella, with a big load of ties for the Bay City and left out for sea shortly afterward.

The sea tug *Geo. R. Vosburg* was busy all day yesterday loading general merchandise for the *Nehalem*, and will leave out this morning, weather and bar permitting.

The steamer *F. A. Kilburn* arrived down from the metropolis yesterday morning with 80 people on board and lots of freight for Coos Bay, Eureka and San Francisco.

The fine steamer *W. S. Porter* of the Standard line came down from Port-

VOTE ON STRIKE.

Forty Seven Thousand Trainmen May Try to Enforce Demands.

OAKLAND, March 14.—Forty seven thousand men, the membership of the Brotherhood of Railway Trainmen west of Denver, are voting whether to go on a strike to enforce demands for an increased scale of wages. The poll, the most extensive movement toward a general strike since the American Railway Union tie up of 1894, has not been finished. Indications are that the last ballots will reach the national headquarters at Cleveland, Ohio, about March 25. The issue seems to depend mainly on the position taken by the Switchmen's Union, which as an organization is not recognized, it is said, by either the railroad managers or the Brotherhood of Railway Trainmen. The master of the local switchmen's union, No. 158, last night said:

"My opinion is that a strike will not be called without the co-operation of the switchmen. The Brotherhood has asked us to vote as individuals."

MANY COME WEST.

SAN FRANCISCO, March 14.—According to the Southern Pacific officials, thousands of people are coming into this state from the East on the low colonist rates, which now prevail. During the last 12 days, the movement to this direction has averaged 767 people per day. If this travel keeps up it will break the Spring record of last year, when in 52 days 19,551 people came from the East.

land yesterday morning and went directly to sea and San Francisco.

The Kamm flag-ship *Lurline* was down in good season last evening and went back up the river with plenty of business, at 7 o'clock.

The Japanese steamship *Manshu Maru* got away over the bar yesterday on her voyage to the Orient.

KILLS STEP FATHER

Boy Shoots. Deputy Sheriff to Save His Mother.

SILVERTON, Colo., March 14.—To save the life of his mother, whom he believed was about to be killed by his step father, J. H. Grange an 18 year old boy shoot and killed Deputy Sheriff W. Acord his step father.

The deed was done with a revolver which Grange picked up from a shelf. Grange claimed that Acord was beating his mother over the head with a revolver and he shot him to save her from further punishment.

The mother corroborates the boy's story as to abusive language, but does not admit that her husband was beating her with a revolver.

BANQUETS EX-PRESIDENT.

RIO JENERO, March 14.—Former President Roco of Argentine is meeting everywhere with demonstrations of friendliness and esteem. He was visited yesterday by President Penna, who will give him a banquet.

Notice To Fishermen.

This is to inform you that during the period beginning Friday (noon) March 15th, 1907, and ending April 15th 1907, at 12 o'clock, noon, it is unlawful to take or fish for SALMON FISH or STURGEON in any manner whatever in the Columbia River or any of its tributaries; or to have in possession any Salmon Fish or Sturgeon so taken. A Chicago gambler, whose first name used to visit a Chinaman's establishment and smoke opium and gamble almost daily. One day he rushed into the place and said excitedly: "Hip, loan me \$10. Thanks I'll come in and pay you tomorrow noon, if I'm alive," and out he went with the money. About three o'clock the next afternoon a friend of the gambler dropped in on the Chinaman and said: "Hip, where is George today?" and the confiding Celestial wiped his eyes with the corner of his blouse and replied: "George, him dead."

KILLS CATARRHAL GERMS.

Breathe Hyomei's Medicated Air and You Will Soon be Well.

If you have catarrh in the nose, head or throat, with offensive breath, coughing, irritation of the throat, raising of mucus, difficulty in breathing, sneezing, husky or hoarse voice, discharge from the nose tickling and dropping at the back of throat, especially at night: begin the use of Hyomei at once. Its healing medication breathed through the neat pocket inhaler that comes with every outfit, will give quick relief in all catarrhal troubles, and its continued use will kill the catarrhal germs and drive them from the system. By using Hyomei you get in your own home the same results as though you lived out of doors in the Adirondacks or the Colorado mountains. The germ-killing properties of the Hyomei reach the most remote air cells of the respiratory organs, soothing and healing any irritation there may be in the mucous membrane and killing all catarrhal germs.

Here in Astoria where Hyomei has been known and sold, there are many who freely attest its wonderful powers, but the best testimony that can be offered in favor of Hyomei is the guarantee that T. F. Laurin gives with every outfit he sells, "money back if it fails."

The complete Hyomei outfit costs

but \$1.00, extra bottles, if needed, 50c, making it the most economical treatment for catarrh as well as the only one that is sold under a guarantee to refund the money if it fails to cure.
